V-GROOVE CLADDING

Interlocking, Smooth ND-WC6

148 X 21 X 5800MM

R400 ex vat per plank

R550 ex vat per M2

CHOCOLATE * SAVANNA * CHARCOAL * GREY

Interlocking White Wood Grain ND-WC7

148 X 21 X 5800MM

R475 ex vat per plank

R680 ex vat per M2

The V-Groove Cladding is an interlocking board with a 128MM coverage once interlocked with a hidden fastening method. Electrical cable can also be run behind the boards for up or down wall mounted lights.

WOODGRAIN CLADDING ND-WC8

160 X 18 X 5800MM

145mm coverage

R589 ex vat per plank

R730 ex vat per M2

including 25 Clips per m2

CHOCOLATE * CHARCOAL

These Wood Grain Embossed Cladding profiles feature a hidden stainless steel clip installation system, resulting in a aesthetically pleasing finish.

CO-EX PANEL ND-WC9

125 X 25 X 5800MM

110MM COVERAGE

R675 ex vat per panel

R3.99

BROWN

The CO-EX PANEL is perfect for giving an ugly wall a quick facelift, by simply cladding it with these panels. Hidden Stainless steel brackets are used during installation, resulting in a seamless finish, with no fasteners in sight.

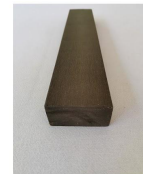

SOLID JOIST ND-J10

54 X 30 X 5800MM

CHOCOLATE

R460 ex vat per Joist

This profile is very versatile and can be used for Balustrades, Fences, Gates, Benches & Pergolas. We've developed what we call our "signature installation method", which we explain to our clients during the design process.

PERGOLA BEAM ND-P4

160 X 60 X 5800MM

CHOCOLATE

R795 ex vat per Beam

This Pergola Beam is perfect for a bold design.

The open ends are capped during installation, giving it a solid appearance.

A 60mm x 40mm Steel tube is inserted into the middle cavity, to prevent sagging, over long spans.

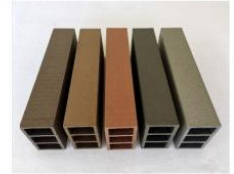

Alternatively, Stainless Steel cables are installed and tightened underneath the Beams which also prevents sagging and adds a design element!

MEDIUM PERGOLA BEAM ND-R1

100 X 50 X 2900MM

R345 ex vat per profile

CHOCOLATE * SAVANNA * TERRACOTT * CHARCOAL * GREY

This profile is used for Balustrades, Fences & Pergolas. We've developed a unique installation method for Pergolas, which we explain to our clients during the design process.

Sheeting: Palram Multiwall Flat Sheeting

*UV Refeective

*High fire rating

*Impact resistant
